We make the following extract from the annual report of Royal A Johnson, surveyor general of Arizona, to the general land office, the subject being one of interest to our people:

PRIVATE LAND GRANTS

This class of work in this office is nec essarily one of slow progress. In the investigation of these old grants, letters are frequently months in being answered. Photographs of printing, writing, autographs, seals, etc., are not infrequently sent both to Spain and the interior of Mexico, for comparison with authentic records, and every step in the investigation of a private land grant is laborious and requires time. Experts, when sent to examine ancient documents in remote places, are often absent for months and are embarrased by the local custodians in many instances to the detriment of the

office highly important grants, which I shall not be able to report upon for some time to come, as the investigations have in most instances been but lately comtation of time within which the United escaped. States would confirm private land grants covering portions of the newly acquired territory and beyond which they would covered in portion by grants which have not even at this late day been filled. These grants exist in reputation only, Mr. Puree'l, of Chicago, resigned. and it seems to be the intention of the claimants to allow their alleged grants to lie dormant until towns are built upon them and their arable and of ill fame, kept by David West and say: It is understood that the court- 1865, at the close of the war by Democrats pasture lands are purchased from the Daisy Williams, respectively, were blown martial will consider the charges against to destroy the Union, \$2,766,431,471 of a government and settled upon, when the up by the citizens this morning by the General Swaim in connection with the national debt.
